MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR THE NINE MONTH PERIOD ENDED

DECEMBER 31, 2020

**Management's Discussion and Analysis  
For the nine-month period ended December 31, 2020  
Discussion dated: February 19, 2021**

---

**Introduction**

This Management's Discussion and Analysis ("MD&A") is dated February 19, 2021, unless otherwise indicated and should be read in conjunction with the audited financial statements of Inomin Mines Inc. ("Inomin", the "Company", "we", "our" or "us") for the year ended March 31, 2020, and the Company's condensed interim financial statements for the nine months ended December 31, 2020 with the related notes thereto which have been prepared in accordance with International Financial Reporting Standards ("IFRS"). All amounts are reported in Canadian dollars.

Management is responsible for the preparation and integrity of the financial statements, including the maintenance of appropriate information systems, procedures, and internal controls and to ensure that information used internally or disclosed externally, including the financial statements and MD&A, is complete and reliable. The Company's Board of Directors follows recommended corporate governance guidelines for public companies to ensure transparency and accountability to shareholders. The Board of Director's Audit Committee meets with management quarterly to review the financial statements and the MD&A and to discuss other financial, operating, and internal control matters.

For the purposes of preparing this MD&A, management, in conjunction with the Board of Directors, considers the materiality of information. Information is considered material if: (i) such information results in, or would reasonably be expected to result in, a significant change in the market price or value of Inomin common shares; or (ii) there is a substantial likelihood that a reasonable investor would consider it important in making an investment decision; or (iii) if it would significantly alter the total mix of information available to investors. Management, in conjunction with the Board of Directors, evaluates materiality with reference to all relevant circumstances, including potential market sensitivity.

The technical disclosures herein have been reviewed and approved by Mr. L. John Peters, P.Geo, a Director of the Company and a qualified person as defined in National Instrument 43-101.

Further information about the Company and its operations can be obtained from [www.sedar.com](http://www.sedar.com) or the Company's website [www.inominmines.com](http://www.inominmines.com).

**Management's Discussion and Analysis  
For the nine-month period ended December 31, 2020  
Discussion dated: February 19, 2021**

---

**Forward-Looking Statements**

This MD&A contain statements that constitute "forward-looking statements" within the meaning of National Instrument 51-102, Continuous Disclosure Obligations of the Canadian Securities Administrators.

It is important to note that, unless otherwise indicated, forward-looking statements in this MD&A describe the Company's expectations as at February 19, 2021.

Forward-looking statements often, but not always, are identified by the use of words such as "seek", "anticipate", "believe", "plan", "estimate", "expect", "targeting", and "intend" and statements that an event or result "may", "will", "should", "could", or "might" occur or be achieved and other similar expressions. Forward-looking statements in this MD&A include statements regarding the Company's future plans and expenditures, the satisfaction of rights and performance of obligations under agreements to which the Company is a part, the ability of the Company to hire and retain employees and consultants and estimated administrative assessment and other expenses. Forward-looking statements involve known and unknown risks, uncertainties, assumptions and other factors that may cause the actual results, performance or achievement expressed or implied by the forward-looking statements. Factors that could cause the actual results to differ include market prices, continued availability of capital and financing, inability to obtain required regulatory approvals and general market conditions. These statements are based on a number of assumptions, including assumptions regarding market conditions, the timing and receipt of regulatory approvals, the ability of the Company and other relevant parties to satisfy regulatory requirements, the availability of financing for proposed transactions and programs on reasonable terms acceptable to the Company and the ability of third-party service providers to deliver services in a timely manner. Some of these risks and uncertainties are identified under the headline "RISK FACTORS" as disclosed elsewhere in this MD&A. Additional information regarding these factors and other important factors that could cause results to differ materially may be referred to as part of particular forward-looking statements.

Forward-looking statements contained herein are made as of the date of this MD&A and the Company disclaims any obligation to update any forward-looking statements, whether as a result of new information, future events or results or otherwise, except as required by securities legislation. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements.

**Description of Business**

Inomin Mines Inc. was incorporated under the Business Corporations Act (British Columbia) on August 23, 2012. Inomin is an exploration stage company engaged in the acquisition and evaluation of mineral properties and related business opportunities. The Company holds a 100% interest in the King's Point polymetallic (gold-copper-zinc) property in Newfoundland ("King's Point"), now optioned to Maritime Resources Corp. (see Significant Events (b)), and the Fleetwood Volcanogenic Massive Sulphide (zinc-copper-silver-gold) property in British Columbia. Inomin has also entered into agreements to acquire 100% of the La Gitana and Pena Blanca (gold-silver) properties in Oaxaca, Mexico (see Significant Events (e)). The Company also owns a 100% interest in the Beaver and Lynx nickel-cobalt properties located in the Cariboo region of south-central British Columbia. (see Significant Events (f)). The Company trades as a Tier Two company on the TSX Venture Exchange under the symbol "MINE".

The Company's Board of Directors is comprised of Evilio J. Gomez-Garcia (John Gomez) (CEO), George Pietrobon (CFO), Ari Shack (Corporate Secretary), L. John Peters, P. Geo. and William Yeomans, P. Geo.

## INOMIN MINES INC.

### Management's Discussion and Analysis For the nine-month period ended December 31, 2020 Discussion dated: February 19, 2021

#### Operating Highlights July 1, 2020 – February 19, 2021

- Filed N.I. 43-101 Technical Report of Beaver-Lynx Properties
- Received multi-year exploration work permits for Beaver-Lynx Nickel Properties
- New Agreement to Acquire La Gitana and Pena Blanca Properties Completed
- N.I. 43-101 Technical Report Completed and Submitted to the Exchange for La Gitana Property
- King's Point Option Payment Received
- Private Placement Closed in Trust
- Canada Metals Ltd. Acquisition Completed

Details are further discussed in this MD&A.

#### Selected Annual Audited Information

Period	Year ended March 31, 2020 (\$)	Year ended March 31, 2019 (\$)	Year ended March 31, 2018 (\$)
Total expenses	165,179	183,362	177,105
Net loss for the period	(168,539)	(170,862)	(199,605)
Basic and diluted earnings per share	(0.010)	(0.010)	(0.013)
Total assets	250,193	395,054	546,662

#### Liquidity

The Company's cash increased to \$434,338 at December 31, 2020 from \$18,831 at March 31, 2020. The Company had a working capital of \$152,621 at December 31, 2020 compared to a working capital of \$41,534 at March 31, 2020.

The Company's current asset balance of \$572,015 (March 31, 2020 - \$65,617) is comprised of cash of \$434,338 (March 31, 2020 - \$18,831), temporary investment of \$77,500 (March 31, 2020 - \$42,500), receivables of \$2,037 (March 31, 2020 - \$2,182), deposit on Mexican subsidiary of \$3,140 (March 31, 2020 - \$2,140), and security deposit on mineral properties of \$55,000 (March 31, 2020 - \$NIL).

The Company has current liabilities of \$18,894 (March 31, 2020 - \$24,083) and funds received on private placement of \$400,500 (March 31, 2020 - \$NIL). All outstanding accounts payable and accrued liabilities relate mainly to management and professional fees.

As of the date of this MD&A, the Company has sufficient working capital to meet its current financial obligations. However, there are also future material going concern uncertainties relating to the Company (refer to Risk Factors).

The Company has no long-term debt, capital lease obligations, operating leases, or any other long-term obligations.

**Fiscal 2021 (Year Ended March 31, 2021)**

During the third quarter of fiscal 2021 (three months ended December 31, 2020), the Company's loss of \$46,421 increased from a gain of \$22,488 incurred during the three months ended September 30, 2020. The loss is principally related to charges for management fees and professional fees.

During the second quarter of fiscal 2021 (three months ended September 30, 2020), the Company's gain of \$22,488 decreased from a loss of \$20,592 incurred during the three months ended June 30, 2020. The gain is related to recovery in excess of cost on the King's Point Property.

During the first quarter of fiscal 2021 (three months ended June 30, 2020) the Company's loss of \$20,952 decreased from a loss of \$48,520 incurred during the three months ended March 31, 2020. The loss is principally related to charges for management fees.

**Fiscal 2020 (Year Ended March 31, 2020)**

During the fourth quarter of fiscal 2020 (three months ended March 31, 2020), the Company's loss of \$48,520 increased from a loss of \$37,927 incurred during the three months ended December 31, 2019. The net loss is principally related to charges for management fees and professional fees.

During the third quarter of fiscal 2020 (three months ended December 31, 2019) the Company's loss of \$37,927 increased from a loss of \$34,806 incurred during the three months ended September 30, 2019. The net loss is principally related to charges for management fees and share-based compensation.

**For the nine-month period ended December 31, 2020**  
**Discussion dated: February 19, 2021**

---

**Summary of Quarterly Results (continued)**

During the second quarter of fiscal 2020 (three months ended September 30, 2019), the Company's loss of \$34,806 decreased from a loss of \$47,286 incurred during the three months ended June 30, 2019. The net loss is principally related to charges for management fees and filling fees.

During the first quarter of fiscal 2020 (three months ended June 30, 2019), the Company's loss of \$47,286 increased from a loss of \$30,115 incurred during the three months ended March 31, 2019. The net loss is principally related to charges for management fees and share-based compensation.

Fiscal 2019 (Year Ended March 31, 2019)

During the fourth quarter of fiscal 2019 (three months ended March 31, 2019), the Company's loss of \$30,115 decreased from a loss of \$43,171 incurred during the three months ended December 31, 2018. The net loss is principally related to charges for management fees and professional fees.

**Significant Events**

*(a) 2017 Financing*

As reflected in the Filing Statement for a Qualifying Transaction ("QT") dated January 20, 2017, in accordance with the policies of the Exchange, the Company arranged a Non-brokered Private Placement Financing consisting of 7,903,459 Units of the Company at a price of \$0.07 per unit, for gross proceeds of \$553,242 (the "Financing"). The Financing closed concurrent with and to provide funding for the Company's acquisition of a 100% interest in the King's Point gold Property in Newfoundland, which constituted the Company's QT under the rules of the Exchange's respecting Capital Pool Companies.

Each Unit of the financing consists of one common share and one non-transferable warrant. Each warrant entitles the holder to purchase one additional share at a price of \$0.10 for a period originally of 2 years ending January 30, 2019 has now been further extended to January 30, 2022. The Company may accelerate the expiry date should shares trade at \$0.25 per share or greater for ten or more consecutive trading days.

The proceeds of offering were partially used to continue an exploration program at the Property, and for general working capital purposes, including payment for certain costs of the offering and QT.

**For the nine-month period ended December 31, 2020**  
**Discussion dated: February 19, 2021**

---

**Significant Events (continued)***(b) King's Point Option Agreement*

On May 16, 2018, the Company entered into an agreement to option its 100% owned King's Point property in Newfoundland to Maritime Resources Corp. ("Maritime").

Under the terms of the Option Agreement, Maritime can earn a 100% interest in King's Point over three years by spending \$600,000 in exploration, cash payments of \$300,000 to the Company, and issuing 2,000,000 Maritime common shares to the Company, in accordance with the following schedule.

Date for Completion	Payment	Common Shares to be Issued	Expenditures (cumulative)
On signing Option Agreement	\$ 25,000 (Received)	-	-
Three (3) business days following approval by the Exchange ("Approval Date")	-	500,000 (Received)	-
1st anniversary of Approval Date	\$ 50,000 (Received)	500,000 (Received)	\$ 75,000 (Expended)
2nd anniversary of Approval Date	\$ 100,000 (Received)	500,000 (Received)	\$ 150,000 (Expended)
3rd anniversary of Approval Date	\$ 125,000	500,000	\$ 375,000
Total	\$ 300,000	2,000,000	\$ 600,000

The Option Agreement includes a 3 kilometre Area of Influence (AOI) – see map in King's Point Operations and Outlook – whereby any mineral claims acquired by Inomin or Maritime within the AOI become part of the property.

The project has a 1% NSR which can be purchased from the Company for \$500,000, and an underlying NSR of 2.5% of which 1.5% can be purchased for \$1,000,000.

The Option Agreement was approved by shareholders of the Company on September 6, 2018 and subsequently by the TSX-V on November 6, 2018.

On September 17, 2019, the Company received a cash payment of \$50,000 and 500,000 Maritime shares valued at the fair value of \$42,500. These shares were subsequently disposed for proceeds of \$41,602.

On September 17, 2020, the Company received a cash payment of \$100,000 and 500,000 Maritime shares valued at the fair value of \$77,500.

**Management's Discussion and Analysis  
For the nine-month period ended December 31, 2020  
Discussion dated: February 19, 2021**

---

**Significant Events (continued)**

*(c) Stock Options*

- (i) On October 9, 2019, the Company granted 300,000 stock options to a Director of the Company. Each option entitles the holder to acquire one common share at an exercise price of \$0.05 per common share for a period of 5 years, expiring on October 9, 2024.
- (ii) On June 21, 2019, the Company granted 400,000 stock options to a Director and a consultant of the Company. Each option entitles the holder to acquire one common share at an exercise price of \$0.05 per common share for a period of 5 years, expiring on June 21, 2024.
- (iii) On June 28, 2018, the Company granted 400,000 stock options to Directors and Officers of the Company. Each option entitles the holder to acquire one common share at an exercise price of \$0.10 per common share for a period of 5 years, expiring on June 28, 2023.
- (iv) On April 18, 2017, the Company granted 700,000 stock options to Directors and Officers of the Company. Each option entitles the holder to acquire one common share at an exercise price of \$0.10 per common share for a period of 5 years, expiring on April 18, 2022.

*(d) Fleetwood Property Strategic Alliance*

On December 21, 2018, the Company formed a strategic alliance with Turnagain Resources Inc. ("Turnagain") to co-market the companies' adjacent Fleetwood and Seneca properties as a combined project named Fleetwood-Seneca.

Any consideration received from a third-party deal, such as an investment or the sale of the Fleetwood-Seneca project, is to be divided equally between the Company and Turnagain. On December 21, 2019 the Company renewed its strategic alliance.

Inomin has had discussions with various parties that have expressed interest in a potential option or acquisition of the project. Fleetwood is a 100% Inomin owned zinc-copper-silver-gold Volcanogenic Massive Sulphide project located approximately 90 kilometres east of Vancouver, British Columbia.

*(e) Acquisition of La Gitana and Pena Blanca Properties*

On May 23, 2019, the Company entered into a non-binding letter of intent to purchase 100% interest in La Gitana Property in Oaxaca State, Mexico from Gunpoint Exploration Ltd. ("Gunpoint") and paid an initial non-refundable deposit of \$10,000. The letter of intent expired without entry into a formal agreement, however, negotiations continued.

The Company entered into an agreement July 31, 2020 to acquire the La Gitana and Pena Blanca gold-silver projects in Mexico. The properties are located approximately 100 kilometres east of Oaxaca City in the prolific Oaxaca Gold-Silver Belt that hosts several epithermal gold-silver mines and prospects.

Subject to acceptance by the TSX-V, the Company will acquire a 100% interest in the La Gitana and Pena Blanca properties for 1,000,000 common shares of Inomin, \$25,000 cash, and the grant of a 1.5% NSR payable to Gunpoint on the Pena Blanca property (with an option for Inomin to purchase 0.5% of the NSR at any time for \$1,000,000). La Gitana is subject to an existing 3% NSR to a third-party which will be assumed by the Company.

**Management's Discussion and Analysis  
For the nine-month period ended December 31, 2020  
Discussion dated: February 19, 2021**

---

**Significant Events (continued)**

*(f) Private Placement*

On August 4, 2020 Inomin announced a non-brokered Private Placement of up to 5,333,333 shares priced at \$0.075 per share, for gross proceeds of up to \$400,000. Peak Asset Management Pty Ltd. ("Peak"), a Melbourne-based investment management firm, was engaged as corporate advisor and lead manager to provide capital raising activities, financial advice, and marketing strategy to Inomin.

On October 7, 2020, the Company announced that it has closed its Private Placement in trust, pending final approval from the TSXV, for gross proceeds of \$400,500. The Company issued 5,340,000 common shares in the capital of the Company. All securities issued under the Private Placement are subject to a four month and one day hold period.

The proceeds of the Private Placement and share certificates for shares to be issued are held in trust pending final TSXV approval of the Company's transaction to acquire the La Gitana gold-silver property in Mexico. The La Gitana property acquisition requires several documentations including completion of a N.I. 43-101 technical report. A technical report for La Gitana has been completed and submitted to the Exchange.

As consideration for Peak Asset Management Pty Ltd. ("Peak") introducing subscribers to the Company under the Private Placement, Peak is entitled to a finder's fee of \$20,000 cash, comprised of a management fee equal to 1% of funds raised and a capital raising fee of 7% funds raised through subscribers introduced to the company by Peak under the Private Placement. Peak is also entitled to 266,666 Inomin common share purchase warrants (each a "Warrant"), with each Warrant entitling the holder to purchase an additional Share at an exercise price of \$0.08 per Share until December 31, 2022.

Inomin intends to use proceeds of the Private Placement to establish operations in Mexico to move forward with the La Gitana project.

*(g) Technical Report and Exploration Permits for Beaver and Lynx Properties*

During the period, Inomin completed and filed a NI 43-101 Technical Report dated June 24, 2020 on the Beaver and Lynx properties. The Company has received multi-year exploration work permits for both properties.

Through staking and acquisitions of approximately 20,000 hectares, the Company owns 100% interest with no royalties, in the Beaver and Lynx nickel-cobalt properties located in the Cariboo region of south-central British Columbia.

**Management's Discussion and Analysis  
For the nine-month period ended December 31, 2020  
Discussion dated: February 19, 2021**

---

**Significant Events (continued)**

*(h) Incorporation of Mexican Subsidiary*

During the year, the Company incorporated a subsidiary in Mexico, Minera Rio Dorado S.A. de C.V. (the "Mexican subsidiary"), to establish a presence and pursue business opportunities. A Mexican entity is required to enact any property agreements in Mexico. The Mexican subsidiary was legally created through the Company's legal counsel, and the shares were transferred into the name of the Company.

At December 31, 2020, the Mexican subsidiary shares were owned by the Company and was therefore a controlled and consolidated subsidiary for financial reporting purposes.

*(i) Acquisition of Canada Metals*

On April 30, 2020, the Company entered into an agreement to acquire Canada Metals Ltd. ("Canada Metals"), a private Australian company backed by Melbourne-based investment management firm Peak Asset Management Pty Ltd. ("Peak"). Canada Metals will have at the time of acquisition, \$50,000 in cash, no liabilities and no current business operations. The acquisition provides the Company with a new strategic investment partner in Peak to assist with future financings and marketing initiatives.

On October 27, 2020, Inomin amended the acquisition price for all of the outstanding shares of Canada Metals to one million common shares of the Company. The original consideration was two million common shares and two million share purchase warrants of the Company.

On December 14, 2020, the TSX-V approved the transaction and the Company closed the acquisition.

Cash of \$50,000 was transferred to Inomin and the former shareholders of Canada Metals are in the process of winding-up Canada Metals pursuant to purchase agreement.

## INOMIN MINES INC.

### Management's Discussion and Analysis For the nine-month period ended December 31, 2020 Discussion dated: February 19, 2021

#### Exploration and Evaluation Assets

Title to exploration and evaluation assets involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many mineral claims. The Company has investigated title to all of its exploration and evaluation assets and, to the best of its knowledge, title to all of its interests are in good standing.

#### *Acquisition of King's Point Property*

On August 12, 2016, Inomin Mines Inc. signed a definitive agreement to acquire 100% of the King's Point gold-copper-zinc property in the Green Bay area of Newfoundland for a one-time payment of 2,750,000 escrowed common shares of Inomin at \$0.07 per share and a 2.5% NSR in favour of the vendor, of which NSR 1.5% can be purchased by Inomin for \$1 million.

Comprising 129 claims covering 3,225 hectares within two separate blocks, the property hosts several priority mesothermal gold and polymetallic VMS exploration targets in an established precious and base metal mineral belt, including the Golden Anchor mesothermal gold prospect, the former Rendell-Jackman copper producer, and the Beetle Pond zinc prospect. The region has excellent infrastructure, and services are available from the nearby communities of King's Point and Springdale.

The acquisition of the King's Point property received final Exchange acceptance and closed effective January 20, 2017. On January 31, 2017 the Company also entered into an Operator Agreement with the vendor, who is a professional geologist, to operate exploration programs under the Company's direction.

On May 16, 2018, the Company entered into an agreement to option its 100% owned King's Point property to Maritime Resources Corp. (see Operations and Outlook (a))

Balance, December 31, 2018		\$	190,088

---

#### Exploration and Evaluation Assets (continued)

##### *Acquisition of Fleetwood Property*

On March 28, 2018, the Company entered into an agreement ("Fleetwood Agreement") to acquire 100% interest in the Fleetwood zinc-copper-silver-gold property located in the New Westminster mining division of south-western British Columbia for the aggregate consideration of \$37,000 comprising \$10,000 cash and 200,000 of the Company's common shares at a deemed issuance price of \$0.135 per share. The TSX Venture Exchange accepted the transaction on April 9, 2018.

On December 21, 2018, the Company formed a strategic alliance with Turnagain Resources Inc. ("Turnagain") to co-market the adjacent Fleetwood and Seneca properties.

On December 21, 2019, the Company renewed its strategic alliance. (see Operations and Outlook (b)).

On March 27, 2020, the B.C. Registry of Energy, Mines and Petroleum Resources extended registering work requirements for all existing mineral claims to December 31, 2021.

Balance, December 31, 2019	\$	37,000
Balance, December 31, 2020	\$	37,000

##### *Acquisition of La Gitana and Pena Blanca Properties*

On May 23, 2019, the Company entered into a non-binding letter of intent to purchase 100% interest in La Gitana Property in Oaxaca State, Mexico from Gunpoint Exploration Ltd. ("Gunpoint") and paid an initial non-refundable deposit of \$10,000. The letter of intent expired without entry into a formal agreement, however, negotiations continued, and an agreement was entered into on July 31, 2020.

Subject to final approval by the TSX, the Company will acquire a 100% interest in the La Gitana and Pena Blanca properties for 1,000,000 common shares of Inomin, \$25,000 cash, and the grant of a 1.5% NSR payable to Gunpoint on the Pena Blanca property (with an option for Inomin to purchase 0.5% of the NSX at any time for \$1,000,000). La Gitana is subject to an existing 3% NSR to a third-party which will be assumed by the Company (see Significant Events (c)).

**Exploration and Evaluation Assets (continued)***Acquisition of Beaver and Lynx Properties*

During fiscal 2020, the Company acquired the Beaver and Lynx nickel-cobalt properties located in the Cariboo region of south-central British Columbia (see Operations and Outlook (d)).

On March 27, 2020, the B.C. Registry of Energy, Mines and Petroleum Resources extended registering work requirements for all existing mineral claims to December 31, 2021.

The Company has applied and during this period was issued a Mine Act permit on the proposed program of mineral exploration on both the Beaver and Lynx properties by posting reclamation security deposit amounting to \$55,000.

Balance, December 31, 2019		\$ 41,738
Technical report	7,000	
Balance, December 31, 2020		\$ 48,738
<hr/>		
Total Exploration and Evaluation Assets as at December 31, 2019		\$ 184,576
Total Exploration and Evaluation Assets as at December 31, 2020		\$ 103,964

The carrying amounts reported for exploration and evaluation assets do not necessarily represent present or future values. Their recoverability is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete their development, and future profitable production or proceeds from the disposition thereof.

For the nine-month period ended December 31, 2020  
Discussion dated: February 19, 2021**

---

**Exploration and Evaluation Assets (continued)**

*Exploration of King's Point Property*

The option agreement with Maritime remains ongoing. Maritime completed the required payments due on the first anniversary and is actively continuing exploration on the property.

During the three-month period ended December 31, 2017, the Company completed an exploration program on the King's Point project located in north-central Newfoundland. The program consisted of line-cutting, soil geochemistry and high-resolution ground magnetometer surveying to better define the southern portion of the Beetle Pond and Golden Anchor areas where previous work had identified soil geochemical anomalies that correlated directly with induced polarization (IP) anomalies.

The highlight of the exploration program in the Beetle Pond area, was the delineation of a sodium depletion zone that correlates directly with the gold and base metal soil geochemical and IP geophysical anomalies. Zones of sodium depletion are commonly associated with Volcanogenic Massive Sulphide (VMS) mineralization and can be a good vectoring tool in the search for this type of deposit.

Beetle Pond is a zinc VMS target located just south of the Golden Anchor gold zone within a large base metal geochemical anomaly measuring in excess of 1.5 kilometres long. A strong IP anomaly extends approximately 700 meters across the mineral showing and off the target to the northwest.

In 1991, Noranda Exploration Company, Inc. drilled three shallow holes at Beetle Pond. One hole intersected a 20-metre-wide zone of semi-massive and massive to stringer sulphide (pyrite) which Noranda stated in their assessment report indicates strong potential for higher grade massive sulphide at depth. Noranda's report concludes, "The felsic stratigraphy within the Catcher's Pond Group (at Beetle Pond) has excellent potential for hosting significant quantities of base metals."

In 2019 Maritime completed exploration activities on the King's Point project including an airborne magnetics and VLF-EM survey over the entire property. An 11 line-kilometre IP chargeability and resistivity survey was also completed over the Golden Anchor and Beetle Pond areas. Golden Anchor is located approximately 1.5 kilometres northeast of Maritime Resources' Hammerdown gold deposit and approximately 600 metres east of the historic Lochinvar VMS deposit. In this area the geological structures change direction to the south creating a fold nose and the potential for increased fluid flow. The IP survey at Golden Anchor located a large, new, untested chargeability anomaly at a depth of approximately 200 metres below surface. Maritime has mobilized a diamond drill team to the area to test this target.

**Capital Resources and Management**

Capital is comprised of the Company's shareholders' equity and any debt that it may issue. The Company's objectives when managing capital are to maintain financial strength and to protect its ability to meet its ongoing liabilities, to continue as a going concern, to maintain creditworthiness and to maximize returns for shareholders over the long term. Protecting the ability to pay current and future liabilities includes maintaining capital above internally determined capital guidelines and calculated risk management levels.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares, issue debt, acquire or dispose of assets. Management believes the Company's working capital is presently sufficient for the Company to meet its near-term objectives.

The Company is not subject to any externally imposed capital requirements.

## INOMIN MINES INC.

### Management's Discussion and Analysis For the nine-month period ended December 31, 2020 Discussion dated: February 19, 2021

#### Off-Balance Sheet Arrangements

At of the date of this filing, the Company does not have any off-balance sheet arrangements that have, or are reasonably likely to have, a current or future effect on the results of operations or financial condition of the Company including, without limitation, such considerations as liquidity and capital resources that have not previously been discussed.

#### Related Party Transactions

##### *Key Management Personnel*

Key management personnel include those persons having authority and responsibility for planning, directing, and controlling the activities of the Company as a whole. The Company has determined that key management personnel consist of executive and non-executive members of the Company's Board of Directors and corporate officers.

Total key management personnel compensation were as follows:

	For the three months ended		For the nine months ended	
	December 31, 2020	December 31, 2019	December 31, 2020	December 31, 2019
Share-based compensation (a)				
John Peters, Director	\$ -	\$ -	\$ -	\$ 9,623
William Yeomans, Director	-	8,194	-	8,194
John Gomez, CEO, Director	-	-	-	-

<b>Total</b>	<b>\$ 18,000</b>	<b>\$ 26,194</b>	<b>\$ 54,000</b>	<b>\$ 75,025</b>

- Share-based compensation represents the fair value of options granted to key management personnel.
- The Company provides compensation to its Chief Executive Officer ("CEO"), Chief Financial Officer ("CFO") and Corporate Secretary, or companies controlled by each of them, in the amount of monthly fees of \$3,000 for the CEO, \$2,000 for the CFO and \$1,000 for the Corporate Secretary, plus applicable GST, which commenced April 1, 2017.

The balances due to the Company's current Directors and Officers included in accounts payables and accrued liabilities was \$6,394 as at December 31, 2020 (December 31, 2019 – \$7,662). These amounts are unsecured, non-interest bearing and payable on demand.

**Management's Discussion and Analysis  
For the nine-month period ended December 31, 2020  
Discussion dated: February 19, 2021**

---

**Risk Factors**

Investing in the common shares of the Company involves risk. Prospective investors should carefully consider the risks described below, together with all of the other information included in this MD&A before making an investment decision. This Company is only suitable for investors who are willing to rely solely on management of the Company and who can afford to lose their entire investment. If any of the following risks actually occurs, the business, financial condition or results of operations of the Company could be harmed. In such an event, the trading price of the common shares could decline, and prospective investors may lose part or all of their investment.

No Operating History

The Company was incorporated on August 23, 2012. The Company's principal purpose is the identification, evaluation and acquisition of assets, properties or businesses or participation therein.

The Company is in the process of exploring and developing its mineral properties and has not yet determined whether those properties contain ore reserves that are economically recoverable. The recoverability of the amounts shown for exploration and evaluation assets is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain necessary financing to fund property commitments and to complete the exploration and development of the properties and upon achieving future profitable production or proceeds from the disposition thereof. These material uncertainties may cast significant doubt about the Company's ability to continue as a going concern.

The Company has financed its operations primarily through the issuance of common shares. The Company continues to seek capital through various means including the issuance of equity and/or debt. While the Company has been successful in securing financing in the past, there is no assurance that it will be able to do so in the future or on terms that are favourable to the Company.

Dilution

If the Company issues treasury shares to finance acquisition or participation opportunities, control of the Company may change, and subscribers may suffer dilution of their investment.

Directors and Officers

The Directors and Officers of the Company will not be devoting all of their time to the affairs of the Company but will be devoting such time as required to effectively manage the Company. Some of the Directors and Officers of the Company are engaged and will continue to be engaged in the search for assets or businesses on their own behalf or on behalf of others such that conflicts may arise from time to time. As a consequence of such conflicts, the Company may be exposed to liability and its ability to achieve its business objectives may be impaired.

Reliance on Management

The Company is relying on its Directors, Officers, and consultants to identify, evaluate and advance its exploration and evaluation assets. The success of the Company is dependent upon the efforts and abilities of its Directors, Officers, and consultants. The loss of any of its Directors, Officers and consultants could have a material adverse effect upon the business and prospects of the Company.

**Management's Discussion and Analysis**  
**For the nine-month period ended December 31, 2020**  
**Discussion dated: February 19, 2021**

---

**Risk Factors (continued)**

Foreign Acquisition

In the event the Company identifies a foreign business or acquisition, investors may find it difficult or impossible to effect service or notice to commence legal proceedings upon any management resident outside of Canada or upon the foreign business and may find it difficult or impossible to enforce against such persons, judgments obtained in Canadian courts.

**Management’s Discussion and Analysis  
For the nine-month period ended December 31, 2020  
Discussion dated: February 19, 2021**

**Operations and Outlook**

**(a) King’s Point Property, Newfoundland**

The King’s Point gold-base metals project is within the prolific Catcher’s Pond Greenstone Belt in the Green Bay area of Newfoundland, noted for high-grade gold deposits. The property comprises 3,225 hectares in two separate claim blocks (North and South Blocks) that host several priority “Buchans-style” VMS exploration targets, as well as intermediate-stage targets including the Golden Anchor mesothermal gold prospect, the former Rendell-Jackman copper producer, and the Beetle Pond zinc prospect. These targets are near the high-grade Hammerdown gold deposit and the Lochinvar VMS deposit. The region has excellent infrastructure and accessibility, located only minutes from the communities of King’s Point and Springdale, the mining hub of Newfoundland.

**Management's Discussion and Analysis  
For the nine-month period ended December 31, 2020  
Discussion dated: February 19, 2021**

---

**Operations and Outlook (continued)**

In the fall of 2017, the Company completed an exploration program that consisted of line cutting, soil geochemistry and high-resolution ground magnetometer surveying to better define the southern portion of the Beetle Pond and Golden Anchor areas where previous work had identified soil geochemical anomalies that correlated directly with induced polarization (IP) anomalies. The highlights of the exploration were the delineation, in the Beetle Pond area, of a sodium depletion zone that correlates directly with the gold and base metal soil geochemical and IP geophysical anomalies. Zones of sodium depletion are commonly associated with Volcanogenic Massive Sulphide (VMS) mineralization and can be a good vectoring tool in the search for this type of deposit.

On May 16, 2018, Inomin announced an agreement to option the King's Point property to Maritime Resources Corp. ("Maritime") - see Significant Events (b) for terms of the proposed transaction. The agreement with Maritime will enable the property to continue to be advanced by Maritime's exploration programs. As Maritime owns the adjacent Green Bay property that hosts the past producing Hammerdown gold mine and the Orion gold deposit separated by a 1.5 km distance, as well as the Lochinvar base-precious metals deposit, their strong geologic knowledge of the area should assist in unlocking the King's Point property's potential value.

**(b) Fleetwood Property, British Columbia**

On March 28, 2018, the Company acquired a 100% interest in the Fleetwood zinc-copper-silver-gold property located in the New Westminster Mining Division of southwestern British Columbia.

On December 21, 2018, the Company formed a strategic alliance with Turnagain Resources Inc. to co-market the companies' adjacent Fleetwood and Seneca zinc-copper-silver-gold properties as a combined project named Fleetwood-Seneca. Together the Fleetwood and Seneca properties are a considerably more attractive exploration and development project as the properties consolidate a significant Volcanogenic Massive Sulphide (VMS) district in southwestern, British Columbia.

Fleetwood-Seneca host the Seneca zinc-copper-silver-gold deposit, the partially delineated Fleetwood, 33 and Vent zones, and several priority exploration targets within a 6 kilometre by 2 kilometre mineral belt.

Any consideration received from a third-party deal, such as an investment or the sale of the Fleetwood-Seneca project, is to be divided equally between Inomin and Turnagain. On December 31, 2019, the Company renewed its strategic alliance.

**Fleetwood-Seneca District Mineralization**

The Fleetwood-Seneca project is located within a 6 km by 2 km northwest trending volcanic belt hosting extensive zinc-copper-silver-gold rich VMS mineralization. Exploration in the belt has discovered four Kuroko style mineral zones: Fleetwood, 33, Vent, and the Seneca deposit. These mineralized zones are typical of VMS districts where deposits commonly occur in clusters.

# FLEETWOOD-SENECA PROJECT

## EM Zoff2 Airborne Survey

**inomin**MINES

**Management's Discussion and Analysis**  
**For the nine-month period ended December 31, 2020**  
**Discussion dated: February 19, 2021**

---

**Operations and Outlook (continued)**

Seneca Deposit

Within the Fleetwood-Seneca VMS district, most of the exploration has focused on the Seneca deposit where (in the Seneca Pit zone) the mineralization is associated with dominantly felsic fragmental footwall units known as the ore zone conglomerate. It is a massive sulphide body with a chalcopyrite-pyrite rich base overlain by a sphalerite-barite-galena-rich zone.

Drilling at the Seneca deposit has encountered several significant intersections that illustrate the high-grade, polymetallic nature of portions of the massive sulphide mineralization.

Work included 33,000 metres of diamond drilling, underground development and extraction of a bulk sample that was custom milled at the Britannia Mine. *This exploration was not carried out under the supervision of a Qualified Person, nor has a Qualified Person verified the data, as all of the written information and reports are unavailable. The only relevance herein is strictly as geological information.*

An estimate of 1.506 million tonnes at a grade of 0.82 g/t gold, 41.13 g/t silver, 0.63% copper, 0.15% lead, and 3.57% zinc for the Seneca deposit is referenced by Arnold (1996), Hoy (1991) and Chapman (1999), without specifying any details, referring to an unpublished 1984 report by Wright Engineers. *This report is not available and none of the aforementioned qualified persons have done enough work to classify this estimate as current mineral resources or by a Qualified Person. In addition, resource categories are not mentioned, and assumptions, parameters and methods used to prepare it are not known. There is no known more recent estimate and much additional drilling would be needed to verify such an estimate. The only relevance herein is strictly as geological information. Neither Inomin nor Turnagain consider this historical estimate as current or as an indication of what might be found on the Fleetwood-Seneca project claim holdings.*

Exploration Targets

The stratabound alteration in the Seneca Pit area is along strike from the stockworks in the Fleetwood and Vent zones indicating a large-scale structural/stratigraphic control of the hydrothermal activity, as well as a genetic relationship between the different alteration zones. The 2- and 3-kilometre distances along-strike between the Seneca deposit and the Vent and Fleetwood zones, respectively, has potential for discovery of additional massive sulphide bodies, in particular the following areas:

1. Northeast of the Seneca deposit an 800 m by 800 m area has not been drill tested and is bounded by mineralized intercepts.
2. An EM anomaly has not been drill tested in a 500 m by 500 m area between the Seneca and the Vent zones: and
3. A low intensity magnetic anomaly has not been drill tested in a 500 m section of favourable stratigraphy to the northwest of the Vent and southeast of the Fleetwood zones contains a low intensity magnetic anomaly.

**Management's Discussion and Analysis  
For the nine-month period ended December 31, 2020  
Discussion dated: February 19, 2021**

---

**Operations and Outlook (continued)**

Fleetwood and 33 Zones

The Fleetwood property covers the Fleetwood and 33 zones hosting both stockwork and overlying massive sulphide mineralization, as well as a large EM anomaly.

The bulk of the exploration drilling done at Fleetwood was by Minnova Inc., (Minnova became Inmet Mining which was acquired by First Quantum Minerals) that discovered the Fleetwood zone in the early 1990s. As part of their program in 1991, Minnova drilled 41 holes at the Fleetwood zone intersecting significant VMS mineralization including 31.2 metres of stockwork type mineralization at a depth of 153 metres, grading 2.1% zinc, 0.3 copper, 0.1% lead, 8.1 g/t silver and 0.1 g/t gold.

At the 33 zone, located 350 meters southwest of Fleetwood, Minnova's drilling returned 23.3% zinc, 1.8% copper, 1.7% lead, 133 g/t silver and 2.3 g/t gold over 3.2 metres at a depth of 170 metres.

Minnova's drilling report concluded that further drill testing was warranted at the Fleetwood property.

*This exploration was carried out by reputable companies, it was not done under the supervision of a Qualified Person nor has a Qualified Person verified the data as the written information and reports are unavailable. The only relevance herein is strictly as geological information.*

Exploration Targets

Minnova's relatively wide spaced drilling at the Fleetwood zone (200 m centres) leaves room for the occurrence of other mineralized bodies.

Northeast of the Fleetwood zone, field work in 2017 confirmed the presence of anomalous zinc and copper values (geochemical sampling by Chevron) occurring within a prominent 1.75 km x 1 km airborne EM anomaly. This Fleetwood EM anomaly is located in rocks higher in the volcanic succession and may represent a stacking of mineralized horizons. A DC IP survey is recommended to further delineate the large Fleetwood EM anomaly as geophysical surveys in the Seneca deposit area demonstrate IP is an effective exploration tool in this environment.

Access and Infrastructure

Located approximately 90 kilometres east of Vancouver, B.C., Fleetwood-Seneca benefits from nearby services, good road access, and excellent infrastructure including an electric powerline on the south end of the project. Additionally, a railway and tidal-barge access are close to the property.

Outlook

The creation of the Fleetwood-Seneca strategic alliance consolidates a proven VMS district with several polymetallic exploration targets. The Company looks forward to attracting a partner to advance the exploration and development of the project.

**For the nine-month period ended December 31, 2020**  
**Discussion dated: February 19, 2021**

---

**Operations and Outlook (continued)**

**(c) Beaver and Lynx Properties, British Columbia**

On July 2, 2020, the Company announced the filing of a technical report dated June 24, 2020 ("Technical Report"), in accordance with National Instrument 43-101 Standards of Disclosure for Mineral projects ("NI 43-101"), for the **Beaver and Lynx sulphide nickel** properties located in south-central, British Columbia.

**Technical Report Highlights**

- Large volumes of relatively shallow uniformly distributed sulphide nickel occur at Beaver property
- Drilling of 25 drill holes at Beaver has delineated nickel and cobalt in four zones over 3 km total strike
- Nickel intersected 8 to 150 metres in thickness grading 0.17% to 0.34% total nickel
- Nickel mineralization amenable to conventional floatation extraction techniques
- Initial exploration at nearby Lynx property suggests comparable nickel results to Beaver

Inomin's 100% owned Beaver-Lynx nickel project consists of the Beaver and Lynx properties totalling 20,190 hectares, located 15 – 25 kilometres east and southeast respectively of Taseko Mines Ltd.'s Gibraltar Mine in British Columbia's Cariboo Mining Division.

The Company has received multi-year exploration work permits for both properties.

**Management's Discussion and Analysis**  
**For the nine-month period ended December 31, 2020**  
**Discussion dated: February 19, 2021**

---

**Operations and Outlook (continued)**

**(i) Beaver Nickel-Cobalt Property**

The 7,509-hectare Beaver nickel-cobalt property is an advanced exploration property located 15 kilometres east of the Gibraltar copper mine. The Beaver property has excellent infrastructure including paved and forestry service roads allowing easy access to all parts of the property. Previous exploration in the Beaver property area initially targeted gold. Although gold was found in select areas, nickel sulphide and cobalt were discovered in all areas drill tested. As the Beaver property is near the Gibraltar mine and other porphyry deposits – representative of major hydrothermal activity – the district is geological conducive for hosting substantial polymetallic deposits.

Of the numerous anomalies identified by airborne and ground magnetic surveys, four areas were partially tested in 2014, by 19 diamond drilling holes totalling 2,187 metres. Drilling intersected sulphide nickel mineralization in shallow south to southwest dipping serpentinites in all areas. Nickel sulphide and cobalt concentrations were quite uniform in each of the zones (see notable drill results below). The ultramafic rock hosting the nickel, delineated by magnetic surveys and drilling, covers a large 4 km by 8 km footprint, indicating the property's potential for large, bulk tonnage, near-surface nickel deposits with cobalt credits.

Given the discovery of significant nickel, a pre-scoping metallurgical study was completed by SGS Canada Inc. in 2015. Preliminary metallurgical tests demonstrated that 90% of the nickel is in the form of nickel sulphide minerals heazlewoodite and pentlandite, with the remaining found in serpentine minerals. Initial testing also revealed positive nickel recoveries, in line with nickel deposits of a similar nature, through conventional floatation methods. Nickel deportment indicates 91% of the nickel is in a recoverable form with the 9% balance retained in solid solution with serpentine. Furthermore, as the host rock breaks down quite readily, the nickel may be amenable to alternative low-cost recovery methods such as heap leaching.

**(ii) Lynx Nickel Property**

The 12,662-hectare Lynx nickel property, located just 11 kilometres south of Beaver, is in a similar but larger nickel geological environment to Beaver, with extensive nickel occurrences in outcroppings. Nickel mineralization is associated with serpentinized ultramafic rocks that may or may not contain magnetite. RGS (regional stream sediment) data collected by the Province of British Columbia illustrates the existence of a large 10 x 5-kilometre nickel anomaly on the Lynx property (see below).

In 2014, an airborne magnetic survey was completed over the entire property. The survey delineated an 8 kilometre-wide ring-like magnetic anomaly and several strong magnetic anomalies – all greater than 2 kilometres in length – denoted as the Bear, Skulow, and Onuki areas. These three areas were the focus of prospecting: of the 17 rock samples chipped from serpentinite outcroppings, 9 contained greater than 0.1% nickel with the highest grading sample containing 0.27% Ni. Exploration demonstrates the Lynx property shows potential for several very large, bulk-tonnage nickel deposits.

**Management's Discussion and Analysis  
For the nine-month period ended December 31, 2020  
Discussion dated: February 19, 2021**

---

**Operations and Outlook (continued)**

**Outlook**

The Beaver and Lynx properties are easily accessible via all-season paved roads; a network of forestry roads provide access within the grounds. Other important complementary infrastructure nearby includes electricity and railroad. Skilled workers, laboratories, and supplies are available locally including from the resource city of Williams Lake situated about 20 kilometres south of Lynx. The topography of the properties is relatively flat, ideal for mining.

Demand for nickel for electric vehicle (EV) batteries is expected to increase considerably over the coming decade. Wood Mackenzie has predicted nickel demand will almost double, growing from 2.29 million tons in 2018 to over 4 million tons by 2040, creating significant potential supply shortages in the coming years. Most electric vehicles rely on lithium-ion batteries, with the main component comprised mostly of nickel. Sulphide nickel, also referred as "Class 1" nickel, is the type most sought by EV battery manufacturers.

The Beaver and Lynx properties provide the potential to delineate significant class 1 nickel resources in a mining-friendly, infrastructure-rich, Tier-1 jurisdiction. Initial exploration demonstrates the properties are of sufficient scale to be attractive to mining companies seeking large, long-life, low-cost project opportunities. With the recent consolidation of the land position, filing of NI 43-101 technical report, and receipt of exploration permits, the Company looks forward to advancing Beaver-Lynx.

**(d) Other Properties**

The Company continues to seek and evaluate other mineral properties for possible acquisition. The acquisition of an advanced project, or other attractive opportunity, should enable the Company to increase its assets, attract further capital, and create shareholder value.

### Management's Discussion and Analysis For the nine-month period ended December 31, 2020 Discussion dated: February 19, 2021

---

#### Share Capital

There are no shares held in escrow as at December 31, 2020. (December 31, 2019 – 757,500). Escrow shares were released as follows:

- 10% with completion of the Company's QT on January 20, 2017 (completed); and
- 15% on each of the 6th, 12th, 18th, 24th, 30th and 36th months following the closing date of the Company's Qualifying Transaction.

As of the date of this MD&A, the Company had 17,384,264 issued and outstanding common shares.

As of the date of this MD&A, total warrants outstanding and exercisable are 7,153,459 warrants which entitle the holders to purchase one additional share per warrant held at a price of \$0.10 per share until January 30, 2022. (See also Private Placement below).

As of the date of this MD&A, the following stock options are outstanding and exercisable:

(i)	540,000	at a share price of \$0.10 per share until April 18, 2022
(ii)	400,000	at a share price of \$0.10 per share until June 28, 2023
(iii)	400,000	at a share price of \$0.05 per share until June 21, 2024
(iv)	<u>300,000</u>	at a share price of \$0.05 per share until October 9, 2024
	<u>1,640,000</u>	

#### Private Placement

In connection with the acquisition of La Gitana and Pena Blanca Properties, on October 7, 2020 the Company announced the closing of its non-brokered private placement of 5,340,000 shares priced at \$0.075 per share, for gross proceeds up to \$400,500.

All securities issued under the Private Placement are subject to a four month and one day hold period. The proceeds of the Private Placement and share certificates for shares to be issued will be held in trust pending final approval of the Transaction. Final approval of the Transaction is subject to Inomin providing the TSX-V additional information on the La Gitana property including completing a technical report, which has been submitted.

As consideration for Peak Asset Management Pty Ltd. ("Peak") introducing subscribers to the Company under the Private Placement, Peak is entitled to a finder's fee of \$20,000 cash, comprised of a management fee equal to 1% of funds raised and a capital raising fee of 7% of funds raised through subscribers introduced to the Company by Peak under the Private Placement. Peak is also entitled to 266,666 Inomin common share purchase warrants (each a "Warrant"), with each Warrant entitling the holder to purchase an additional Share at an exercise price of \$0.08 per Share until December 31, 2022.

**Management's Discussion and Analysis  
For the nine-month period ended December 31, 2020  
Discussion dated: February 19, 2021**

---

**Financial Instruments and Risks**

(a) Classification of financial instruments

The Company's financial instruments consist of cash, receivables, deposit, temporary investment, and accounts payable and accrued liabilities. The Company designated its cash, receivables, deposit, and temporary investment as at fair value. The accounts payable and accrued liabilities are designated as at amortized cost.

The carrying values of accounts payable and accrued liabilities as at March 31, 2020 approximate their fair value due to their short term nature.

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities.
- Level 2 – Inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly or indirectly;
- Level 3 – Inputs that are not observable for the asset or liability.

As at March 31, 2020, the fair value of the temporary investment was based on level 1 of the fair value hierarchy. The 500,000 shares of Maritime Resources Corp. were valued at the fair value of \$42,500. During this period, these shares were disposed to net the Company \$41,602.

On September 17, 2020, the Company received an additional 500,000 shares of Maritime Resources Corp. valued at the fair value of \$77,500.

The Company's cash is carried at fair value based on level 1 of the fair value hierarchy.

(b) Risk management

The Company has exposure to the following risks from its use of financial instruments: credit risk, market risk and liquidity risk. Management, the Board of Directors, and the Audit Committee monitor risk management activities and review the adequacy of such activities.

(i) Credit risk

Credit risk is the risk of potential loss to the Company if a customer or counter party to a financial instrument fails to meet its contractual obligations. The Company's credit risk is limited to the carrying value of cash shown on the statement of financial position, which is held with high credit quality financial institutions, management considers the risk to be minimal.

(ii) Market risk

Market risk is the risk that fair value of future cash flows of a financial instrument will fluctuate due to changes in market prices. Market risk consists of currency risk, interest rate risk and other price risk. The Company is exposed to market risk with respect to fluctuations in the fair value of its temporary investments in marketable securities. The Company's exposure to market risk is limited to the carrying value of temporary investments.

**Management's Discussion and Analysis  
For the nine-month period ended December 31, 2020  
Discussion dated: February 19, 2021**

---

**Financial Instruments and Risks (continued)**

(iii) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they come due or can only do so at excessive cost. As at December 31, 2020, the Company has unencumbered cash of \$33,838 (December 31, 2019 - \$54,228), to settle liabilities of \$18,894 (December 31, 2019 - \$11,097) which are subject to normal trade terms.

**Critical Accounting Estimates and Judgements**

The preparation of these financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, and expenses. Actual results may differ significantly from these estimates.

Critical judgements

Significant judgements made by management affecting the financial statements include:

*Going concern*

The preparation of the financial statements requires management to make judgements regarding the going concern of the Company as previously discussed in the description of business.

*Exploration and evaluation assets*

The application of the Company's accounting policy for exploration and evaluation expenditures requires judgement in determining whether it is likely that future economic benefits will flow to the Company, which may be based on assumptions about future events or circumstances. Estimates and assumptions made may change if new information becomes available. If, after expenditures are capitalized, information becomes available suggesting that the recovery of expenditures is unlikely, the amount capitalized is written off in the profit or loss in the period the new information becomes available.

Key sources of estimation uncertainty

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Significant estimates made by management affecting the financial statements include:

*Share-based payments and share issue costs.*

Estimating fair value for granted stock options and warrants requires determining the most appropriate valuation model which is dependent on the terms and conditions of the grant. This estimate also required determining the most appropriate inputs to the valuation model including the expected life of the option or warrant, volatility, dividend yield, and rate of forfeitures and making assumptions about them. The value of the stock-options granted, and the finder's warrants issued during the year was determined using the Black-Scholes option pricing model.

**Management's Discussion and Analysis  
For the nine-month period ended December 31, 2020  
Discussion dated: February 19, 2021**

---

**Recent Accounting Pronouncements**

IFRS 16, Leases ("IFRS 16") was issued by the IASB in January 2016 and replaced IAS 17 Leases. IFRS 16 specifies the methodology to recognize, measure, present and disclose leases. The standard provides a single lessee accounting model, requiring lessees to recognize assets and liabilities for all leases except for short-term leases and leases with low value assets. IFRS 16 substantially carries forward the lessor accounting requirements in IAS 17. IFRS 16 became effective for annual periods beginning on January 1, 2019. The adoption of IFRS 16 had no impact on the financial statements of the Company.
