INOMIN MINES INC.**NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS**

Unaudited – prepared by management

SEPTEMBER 30, 2023

(Expressed in Canadian dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN

Inomin Mines Inc. (the "Company" or "Inomin") was incorporated under the Business Corporations Act (British Columbia) on August 23, 2012, and is an exploration stage public company whose shares trade on the TSX Venture Exchange ("TSX-V") under the symbol "MINE". The Company's principal purpose is the identification, acquisition, and exploration of mineral properties. The Company's principal place of business is 700 West Georgia Street, Suite 2200, Vancouver, British Columbia V7Y 1K8, Canada.

These condensed interim consolidated financial statements are prepared on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The Company is in the process of exploring its mineral properties and has not yet determined whether those properties contain ore reserves that are economically recoverable. The recoverability of the amounts shown for exploration and evaluation assets is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain necessary financing to fund property commitments and to complete the exploration and development of the properties and upon achieving future profitable production or proceeds from the disposition thereof.

The Company has an accumulated deficit of \$1,934,793 as at September 30, 2023 (2022 – \$1,772,082) and recognized a net loss and comprehensive loss of \$162,711 for the six months ended September 30, 2023 (2022 – loss of \$209,278). During the six months ended September 30, 2023, the Company's cash flows used in operation activities were \$172,208 (2022 – \$140,700). These conditions indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern.

The Company has financed its operations primarily through the issuance of common shares. The Company continues to seek capital through various means including the issuance of equity and/or debt. During the six months ended September 30, 2023, the Company completed a private placement to raise \$606,950 (Note 5). While the Company has been successful in securing financing, there is no assurance that it will be able to do so in the future or on terms that are favourable to the Company. Accordingly, these condensed interim consolidated financial statements do not give effect to adjustments, if any, that would be necessary should the Company be unable to continue as a going concern. If the going concern assumption was not used, then the adjustments required to report the Company's assets and liabilities on a liquidation basis could be material to these condensed interim consolidated financial statements.

2. BASIS OF PRESENTATION***Statement of Compliance***

These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") applicable to the preparation of interim financial statements as issued by the International Accounting Standards Board ("IASB") and Interpretations of the IFRS Interpretations Committee ("IFRIC"). These interim condensed consolidated financial statements should be read in conjunction with the annual financial statements for the year ended March 31, 2023, which were prepared in accordance with IFRS. The accounting policies adopted are consistent with those of the previous financial year.

Basis of Measurement

These condensed interim consolidated financial statements have been prepared on a historical cost basis, except for certain financial instruments that are measured at fair value. In addition, these condensed interim consolidated financial statements have been prepared using the accrual basis of accounting except for cash flow information.

These condensed interim consolidated financial statements are presented in Canadian dollars, unless otherwise noted, which is also the Company's functional currency.

(Expressed in Canadian dollars)

Critical estimates and judgements

The preparation of these condensed interim consolidated financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, and expenses. Actual results may differ significantly from these estimates.

The significant judgments made by management in applying the Company's accounting policies and key sources of estimation uncertainty were the same as those applied to the annual audited consolidated financial statements for the year ended March 31, 2023.

3. SECURITIES

In conjunction with the sale of its previously owned 100% King's Point Property in Newfoundland (the "King's Point Project"), the Company acquired common shares of Maritime Resources Corp. ("Maritime"). As at March 31, 2023, and September 30, 2023, the Company held 1,000,000 common shares of Maritime. These securities of Maritime are carried at the market value of \$35,000 based on their quoted price.

	Number of securities	Fair value \$
Balance, March 31, 2023	1,000,000	45,000
Unrealized loss on securities	-	(10,000)
Balance, September 30, 2023	1,000,000	35,000

The Company holds a 1% NSR on the King's Point Project, including mineral claims acquired by Maritime within three kilometres from the perimeter of the King's Point Project.

4. EXPLORATION AND EVALUATION ASSETS

Title to exploration and evaluation assets involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for uncertainty arising from the frequently ambiguous conveyancing history characteristic of many mineral claims. The Company has investigated title to all of its exploration and evaluation assets and, to the best of its knowledge, titles to all of its interests are in good standing.

(a) Beaver-Lynx Property

During the 2019 fiscal year, the Company acquired the Beaver and Lynx nickel-cobalt properties located in the Cariboo region of south-central British Columbia through staking.

The Company was issued Mines Act permits on the proposed program of mineral exploration on both the Beaver and Lynx properties by posting a reclamation security deposit amounting to \$55,000.

The Company subsequently acquired additional mineral claims to join the Beaver and Lynx properties into a single property (Beaver-Lynx).

On July 7, 2023, the Company issued 100,000 common shares of the Company to acquire additional mineral claims, extending the size of its Beaver-Lynx property. Fair value of the common shares issued of \$7,000, was measured at the closing market price of common shares at the date of issuance.

(b) La Gitana and Pena Blanca Properties

During the 2020 and 2021 fiscal years, the Company acquired a 100% interest in the La Gitana and Pena Blanca gold-silver properties in Oaxaca State, Mexico from Gunpoint Exploration Ltd. ("Gunpoint") for 1,000,000 common shares (issued) of Inomin, \$35,000 cash payment (paid), and the grant of a 1.5% Net

Smelter Royalty (“NSR”) payable to Gunpoint on the Pena Blanca property (with an option for Inomin to purchase 0.5% of the NSR at any time for \$1,000,000). La Gitana is subject to an existing 3% NSR to a third-party which was assumed by the Company.

(c) Exploration cost for the six months ended September 30, 2023:

The table below details the expenditures incurred on each project during the six months ended September 30, 2023:

The Company is eligible for British Columbia Mining Exploration Tax Credit (“BCMETS”) on qualifying exploration expenditures of up to 30%. The Company’s claim for the BCMETS for exploration expenditures incurred during the taxation year ended March 31, 2022, was approved by the Canada Revenue Agency. On July 24, 2023, the Company received and recognized in the recoveries \$7,987 for its BCMETS claim.

5. SHARE CAPITAL

- (a) The authorized share capital of the Company consists of an unlimited number of common shares without par value.
- (b) Issued and Outstanding – 38,313,552 as at September 30, 2023 (March 31, 2023 – 30,946,410).

During the six months ended September 30, 2023***Private Placement – Flow-Through and Non-Flow-Through Units.***

On May 31, 2023, the Company completed a non-brokered private placement (the “Private Placement”) of 3,992,142 units (each, a “Unit”) at a price of \$0.07 per Unit and 3,275,000 flow-through units (each, a “FT Unit”) at a price of \$0.10 per FT Unit for gross proceeds of \$606,950.

Each Unit consists of one common share of the Company and one share purchase warrant (each, a “NFT Warrant”). Each NFT Warrant is exercisable by the holder to acquire one share for a period of 36 months at a price of \$0.13 per Share.

Each FT Unit consists of one share that will qualify as a “flow-through share” and one share purchase warrant of the Company (each, a “FT Warrant”). Each FT Warrant is exercisable by the holder to acquire one share for a period of 24 months at a price of \$0.15 per Share.

SEPTEMBER 30, 2023

(Expressed in Canadian dollars)

In connection with the Private Placement, the Company issued an aggregate of 256,550 non-transferrable finder's warrants (the "Finder's Warrants") and paid finder's commissions of an aggregate of \$24,574. A total of 36,050 Finder's Warrants were issued on the same terms as the NFT Warrants and 220,500 Finder's Warrants were issued on the same terms as the FT Warrants. The Company also paid other professional and filing fees totaling \$23,687.

The premium received on the issuance of FT Units was recognized as a liability on the Company's statement of financial position. The continuity of the flow-through premium liability was as follows:

Balance, March 31, 2023	\$	-
Flow-through premium liability recognized		98,250
Recognized to profit or loss upon incurring qualifying expenditures		(95,526)
Balance, September 30, 2023	\$	2,724

(c) Stock Options

The Board of Directors of the Company may from time to time, at its discretion, and in accordance with TSX-V requirements, grant to Directors, Officers, and consultants of the Company, non-transferable options to purchase common shares exercisable for a period of up to 5 years from the date of grant, provided that the number of common shares reserved for issuance will not exceed 10% of the then issued and outstanding common shares.

On April 11, 2023, the Company granted incentive stock options to a consultant to acquire 100,000 common shares of the Company at \$0.07 per common share, vesting immediately, for a period of two years expiring April 11, 2025. The Company recognized \$5,380 as share-based compensation expense for these options granted, determined using Black Scholes model.

On July 3, 2023, the Company granted 1,400,000 stock options under the Company's stock option plan to directors and advisors of the Company. The options are exercisable until July 3, 2028, at a price of \$0.075 per common share, and vested immediately. Fair value of the options of \$98,280 (\$43,875 of which was with related parties) was determined using Black Scholes model.

The following assumptions were used in the valuation of options granted during the six months ended September 30, 2023:

	April 11, 2023	July 3, 2023
Share price at grant date	\$0.07	\$0.075
Exercise price	\$0.07	\$0.075
Expected volatility	166%	162%
Expected life	2 years	5 years
Expected dividends	Nil	Nil
Expected forfeiture rate	Nil	Nil
Risk-free interest rate	4.32%	3.74%

The following table summarizes the continuity of stock options:

(d) Warrants

During the six months ended September 30, 2023, in connection with the Private Placement, the Company issued 256,550 finders' warrants valued at \$12,505. A total of 36,050 Finder's Warrants were issued on the same terms as the NFT Warrants and 220,500 Finder's Warrants were issued on the same terms as the FT Warrants, described above. The fair value attributed to the FT finders' warrants was determined using the Black-Scholes valuation model using the following assumptions: Risk free interest rate of 4.32%, expected life of two years, and volatility rate of 166%. The fair value attributed to the NFT finders' warrants was determined using the Black-Scholes valuation model using the following assumptions: Risk free interest rate of 3.96%, expected life of three years, and volatility rate of 180%.

The following table summarizes the continuity of the Company's warrants:

	Number of warrants	Weighted average exercise price (\$)
Outstanding and exercisable, March 31, 2023	1,111,000	0.15
Granted flow-through warrants	3,495,500	0.15
Granted non-flow-through warrants	4,028,192	0.13
Expired	(63,000)	0.15
Outstanding and exercisable, September 30, 2023	8,571,692	0.14

As at September 30, 2023, the following warrants were outstanding and exercisable:

Expiry date	Number of warrants	Exercise price (\$)	Remaining contractual life (years)
August 25, 2025	1,048,000	0.15	1.90
May 29, 2025	3,495,500	0.15	1.66
May 29, 2026	4,028,192	0.13	2.66
	8,571,692	0.14	2.16

During August 2023, the Company extended the term of 1,048,000 warrants issued as part of the Company's private placements that closed on August 25, 2021, and September 24, 2021. The warrants are exercisable at a price of \$0.15 and would have expired on during August and September 2023. The term of these warrants was extended to August 25, 2025. All other terms of the warrants remained the same. A total of 63,000 warrants issued as part of the same private placement expired unexercised.

6. FINANCIAL INSTRUMENTS

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 – Inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly or indirectly; and

Level 3 – Inputs that are not observable for the asset or liability.

	Fair value hierarchy	September 30, 2023 \$	March 31, 2023 \$
Financial assets at FVTPL			
Cash and cash equivalents	Level 1	215,978	182,663
Securities	Level 1	35,000	45,000
		250,978	227,663

The carrying values of the Company's security deposit on exploration and evaluation assets and accounts payable and accrued liabilities approximate their fair values due to the market rates of interest attached and or due to their short-term nature.

Management of financial risks

The Company has exposure to the following risks from its financial instruments: credit risk, liquidity risk and market risk. Management and Board of Directors monitor risk management activities and review the adequacy of such activities.

Credit risk:

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The Company's maximum exposure to credit risk is limited to the carrying values of cash and cash equivalents, and security deposit on exploration and evaluation assets shown on its consolidated statement of financial position, which totaled \$270,978 at September 30, 2023 (March 31, 2023 - \$237,663). The cash and cash equivalents, and security deposit on exploration and evaluation assets are held with high credit quality financial institutions, management considers the risk of loss on these financial instruments to be minimal. The Company's management of credit risk has not changed materially from that of the prior period.

Liquidity risk:

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Management endeavors to maintain cash and cash equivalents in excess of financial liabilities, to enable payment of financial liabilities as they come due. As at September 30, 2023, the Company had cash and cash equivalents of \$215,978 (March 31, 2023 - \$182,663) and securities of \$35,000 (March 31, 2023 - \$45,000), to settle accounts payable and accrued liabilities of \$49,228 (March 31, 2023 - \$61,566) which are short-term in nature and subject to normal trade terms. The Company's management of liquidity risk has not changed materially from that of the prior period.

Market risk:

Market risk is the risk that the fair values or future cash flows of a financial instrument will fluctuate due to changes in market prices. Market risk consists of foreign currency risk, interest rate risk and other price risk. Management has determined that the Company is not exposed to material interest rate risk. The Company's management of market risk has not changed materially from that of the prior year.

(Expressed in Canadian dollars)

- *Foreign currency risk:*

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign currency exchange rates. The Company maintains its cash reserves in Canadian dollars and Mexican pesos. As at September 30, 2023 cash held in banks were mainly denominated in Canadian dollars.

As at September 30, 2023, the Company had certain monetary items denominated in Mexican pesos. Based on these net exposures, a 10% appreciation or depreciation of the Canadian dollar against the Mexican pesos would result in an increase or a decrease of approximately \$551 in the Company's net loss.

- *Other price risk:*

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or foreign currency risk). The Company is exposed to other price risk with respect to fluctuations in the fair value of its securities. The Company's exposure to other price risk is limited to the fair value of securities, which totaled \$35,000 at September 30, 2023 (March 31, 2023 - \$45,000). Based on this exposure, a 10% change in price of the securities in comparison to the price as of March 31, 2023, would result in an impact of \$3,500 on the Company's net loss.
